We Contribute to the Development of the Region

Connected  
Retail  
We take the consumer  
experience to a new level  
in the retail and commerce  
industry.

Agro Connect  
We preserve the  
health of the animal,  
reducing milk waste  
and reducing possible  
fraud in the supply  
chain.

Bosque  
Iluminado  
Security, productivity and  
sustainability to 700  
hundred hectares of  
forestry operation.

Digital Kitchen  
With Artificial  
Intelligence we promote  
the efficient use of  
resources and avoid  
food loss.

Smart Safety  
We support public and private  
entities in the development of  
solutions that reduce crime and  
the perception of insecurity in  
the population.

Smart  
Detection  
We promote and manage  
the safety of the  
population and distancing  
in times of pandemic.

Infovia Digital  
We bring connectivity and  
digitization to Mato  
Grosso do Sul in Brazil.  
79 states will benefit.

We are a company focused on our customers, focused on responding proactively and closely to their business challenges. We lead the digital transformation in the region, thanks to our ability to project innovation, trust, solidity, agility, leadership and experience.

¿HOW DO WE PROJECT OURSELVES?

As a strategic partner of  
our clients in the digital  
transformation processes

Global IT industry leader  
in innovative business  
solutions

Agile, digital company  
with excellent services

As an attractive work environment,  
which allows attracting and retaining  
technological talents with the  
employee at the center

Sustainability in our DNA

SONDA Wellness Program: an initiative that promotes the physical, mental and social health of our employees.

SONDA Mujeres: program that seeks to increase the representation of women in SONDA and in the IT industry, in addition to attracting, retaining and promoting leadership skills in the leaders of the future.

Internal recycling Program: and internal actions to encourage the responsible use of resources.

Diversity & Inclusion: we develop internal initiatives with the aim of generating organizational awareness and an increasingly inclusive culture.

Data Center Kudos: we have the Leed Silver certification from the US Green Building Council, guaranteeing efficient energy use and a 100% renewable energy supply.
