

## USE CASE

### Business Solutions

## Fiscal Systems Migration and Modernization Solution with Data Integration

Implemented in Brazil

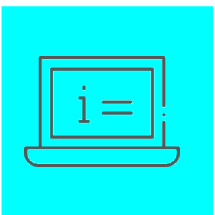

### Challenge:

Lead a large-scale project, with a negotiation cycle exceeding two years, to replace the fiscal system by incorporating new functionalities and tailored developments, ensuring technical feasibility, business alignment, and operational continuity throughout the transition.

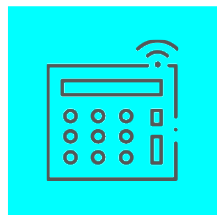

### Solution:

- Migrated and modernized the corporate fiscal system.
- Implemented new functionalities and fiscal-specific requirements.
- Data integration with corporate systems and ERP.
- Successful go-live, with expansion to new fiscal projects underway.

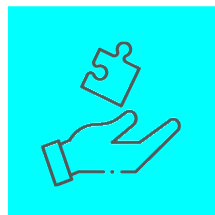

## Benefits:

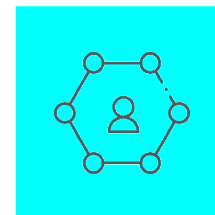

Successful go-live of the new system, **with active operational workstreams.**

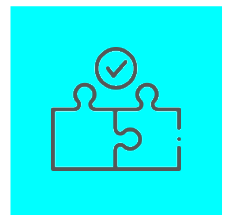

Stabilization of fiscal processes with **increased reliability and performance.**

Continued evolution of the **solution with new implementation initiatives.**

Creation of new opportunities for **expansion and additional projects.**

Strengthened relationship and **confidence in the adopted solution.**
