Scalable Licensing Solution for the VMS Platform for Enterprise Expansion

Implemented in: Argentina

Challenge:

Expand the Milestone XProtect video surveillance platform to new facilities, ensuring operational continuity, compatibility with the existing environment, and scalability for future expansion across different units and business areas.

Solution:

- Provision of licenses under a flexible demand-based acquisition model.
- Continuous technical support service with periodic renewal.
- Scalable model ensuring standardization, traceability, and alignment with IT policies and regulations.

Benefits:

■ Simplified expansion of the **Milestone security platform**.

■ Contractual flexibility with **on-demand delivery**.

■ Licensing compatible with **existing infrastructure**.

■ Automatic renewal and **continuous support**.

■ IT governance with corporate traceability and **standardization**
