

BUSINESS CASE

Enterprise Solutions

Foreign Trade Solution Integrated with ERP under Critical Timeline

Implemented in: Brazil

Challenge:

Implement the import solution integrated with SAP within a highly demanding timeframe, ensuring alignment with the global project and operational stability, with no possibility of extending the schedule.

Solution:

- Implementation of the CE PLUS solution for managing import processes (COMEX).
- Integration with SAP ERP, aligned with the company's global project.
- Coordinated execution with the global team, under a demanding timeline with no margin for rescheduling.

Benefits:

Project implemented within **the established timeline.**

High level of satisfaction and **strengthened relationship.**

New initiatives in the final phase of **execution.**

Expansion of business **opportunities in fiscal solutions.**
